### IMPORTANT

*Read instructions thoroughly prior to installation. Installation should be performed by a qualified professional. Over-tightening or uneven tightening of front bezel screws can break or distort the glass.*

### INSTALLATION

1. Place a towel on a table and lay out all parts of the mirror assembly.
2. Place the mirror mount into the mount housing.
3. Attach the mount housing assembly to the main housing plate. Use a small amount of thread locker if desired.
4. Depending on the model/style of mirror the foam material may be separated from the mirror. In this case, place the foam into the main mirror housing.
5. If the foam is attached to the mirror glass simply place the glass into the main mirror housing with the mirror side facing out.
6. Align the front bezel over the holes and finger tighten the screws until snug. Thread locker can be used in this step that screws do not need to be over tightened.
7. Slowly tighten each bezel screw in an alternating pattern to for even distribution of pressure across the glass. Check glass to ensure there is no movement or distortion.
8. Install the rear bezel (if applicable), use of thread locker is optional.

### NIGHTHAWK LIGHT BOX

In the maintenance or replacement process simply replace the Mirror Mount Housing and bezel in the above steps. The only difference in assembly is that the bezel must be placed in the Main Mirror Housing first, then the Light box Housing will be installed on top of that. Once the box is installed and tightened down you will follow steps 4-8 in the above installation guide.

PLEASE CONTACT USING THE INFORMATION BELOW.

### BAJA DESIGNS WIRING DIAGRAM

### LENS SWAP INSTRUCTIONS

- When installing a different lens, simply remove the 4 M4 screws using a 2.5mm allen wrench from the bezel.
- Carefully remove the front bezel and lens.
- Make sure the o-ring is properly fitted in the o-ring groove of the housing when installing the new lens.

The o-ring is not directional, although the shape has been designed to match the housing profile groove.

- Once you have ensured the o-ring, lens, and bezel has been properly seated, begin tightening the 4 M4 screws.

The bezel hardware should be torqued to 6.5 lbf.in, in a "criss-cross" pattern.

## **LIMITED LIFETIME WARRANTY**

Baja Designs proudly offers a LIFETIME WARRANTY against manufacturer's defect on all of the products that we manufacture.

These are comprehensive warranties; other than the exclusions below – you're covered. If your LED or HID bulb burns out, you're covered. Additionally, cutting off our connector or changing your lenses does not automatically void your warranty.

### **EXCLUSIONS**

Installation errors, abuse, misuse or crash damage. You must be the original owner of the product and can supply proof of purchase.

Baja Designs manufactures its own products as well as resells products manufactured by others. Baja Designs makes no express or implied warranties on products not manufactured by Baja Designs including without limitation any warranties or merchantability and fitness for a particular purpose. We will however, pass on all warranties made by the manufacturer, who has sole responsibility for performing such warranties.

Baja Designs will pay the freight if your product is less than 90 days old, otherwise defective products must be returned to Baja Designs, Inc., freight prepaid. At our option, we will repair or replace items in question and return them at no charge. If the identical product is no longer available, we will replace with a similar product of equal value. Baja Designs Inc. will not be responsible for any indirect or consequential damages in connection with defective merchandise.

Items purchased through a Baja Designs authorized dealer must be returned through the dealer. Only available on LED auxiliary lights and product must be in sellable condition at MSRP. Product that has been damaged in any way after the original purchase date will be excluded from this guarantee

### **INDEMNIFICATION**

Buyer hereby acknowledges off-roading, racing and driving at night are dangerous activities and that the products and/or supplies purchased from Baja Designs are used in an inherently dangerous activity that may endanger life and limb; and in no event shall the seller, or seller's heirs and assigns, be held liable for consequential damages, nor shall seller's liability on any claim for damages arising out of or connected with the sale, delivery, or use of purchased products and/or supplies exceed the purchase price of the products and/or supplies.
